

Little Lemon Booking System

MySQL Stored Procedures

1. GetMaxQuantity()

```
USE LittleLemonDB;

DROP PROCEDURE IF EXISTS GetMaxQuantity;

DELIMITER //

CREATE PROCEDURE GetMaxQuantity()
BEGIN
    SELECT MAX(Quantity) AS `Max Quantity in Order`
    FROM Orders;
END //

DELIMITER ;
```

2. ManageBooking()

```
DROP PROCEDURE IF EXISTS ManageBooking;

DELIMITER //

CREATE PROCEDURE ManageBooking(
    IN booking_date DATE,
    IN table_num INT
)
BEGIN
    IF EXISTS (
        SELECT 1
        FROM Bookings
        WHERE BookingDate = booking_date
        AND TableNumber = table_num
    ) THEN
        SELECT CONCAT(
            'Table ', table_num,
            ' is already booked on ',
            booking_date
        ) AS BookingStatus;
    ELSE
        SELECT CONCAT(
            'Table ', table_num,
            ' is available on ',
            booking_date
        ) AS BookingStatus;
    END IF;
END //

DELIMITER ;
```

3. AddBooking()

```
DROP PROCEDURE IF EXISTS AddBooking;

DELIMITER //

CREATE PROCEDURE AddBooking(
    IN booking_id INT,
    IN customer_id INT,
    IN table_num INT,
    IN booking_date DATE
)
BEGIN
    INSERT INTO Bookings
        (BookingID, CustomerID, TableNumber, BookingDate)
```

```
VALUES
    (booking_id, customer_id, table_num, booking_date);

SELECT CONCAT(
    'Booking ', booking_id,
    ' added successfully'
) AS Confirmation;
END //
```

DELIMITER ;

4. UpdateBooking()

```
DROP PROCEDURE IF EXISTS UpdateBooking;

DELIMITER //
```

```
CREATE PROCEDURE UpdateBooking(
    IN booking_id INT,
    IN booking_date DATE
)
BEGIN
    UPDATE Bookings
    SET BookingDate = booking_date
    WHERE BookingID = booking_id;

    SELECT CONCAT(
        'Booking ', booking_id,
        ' updated successfully'
    ) AS Confirmation;
END //
```

DELIMITER ;

5. CancelBooking()

```
DROP PROCEDURE IF EXISTS CancelBooking;

DELIMITER //
```

```
CREATE PROCEDURE CancelBooking(
    IN booking_id INT
)
BEGIN
    DELETE FROM Bookings
    WHERE BookingID = booking_id;

    SELECT CONCAT(
        'Booking ', booking_id,
        ' cancelled successfully'
    ) AS Confirmation;
END //
```

DELIMITER ;

Test Commands

```
CALL GetMaxQuantity();

CALL ManageBooking('2026-09-20', 5);

CALL AddBooking(10, 1, 5, '2026-09-20');

CALL UpdateBooking(10, '2026-09-21');

CALL CancelBooking(10);
```
